Frontend Developer

As a Frontend Developer, I possess a strong proficiency in HTML, CSS, JavaScript, Git, React, and Webpack. I have a keen eye for design and user experience, ensuring that websites are not only visually appealing but also highly functional. My expertise in these technologies allows me to create responsive and interactive web applications. I am also skilled in version control with Git, enabling efficient collaboration with team members. Overall, I am a versatile developer who can bring creative solutions to the frontend development process.
